

FIG. 1

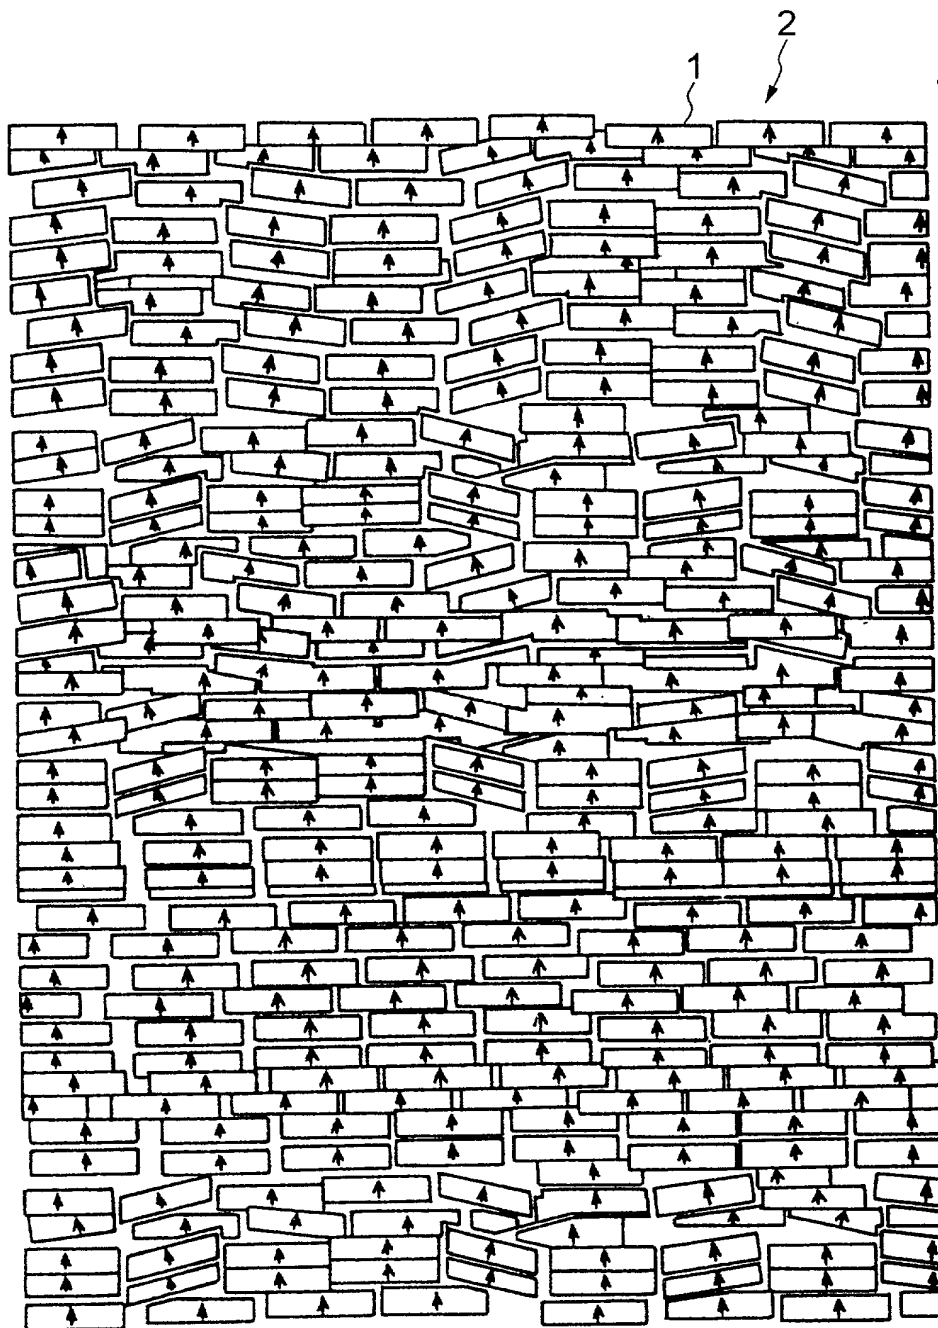

FIG. 2A

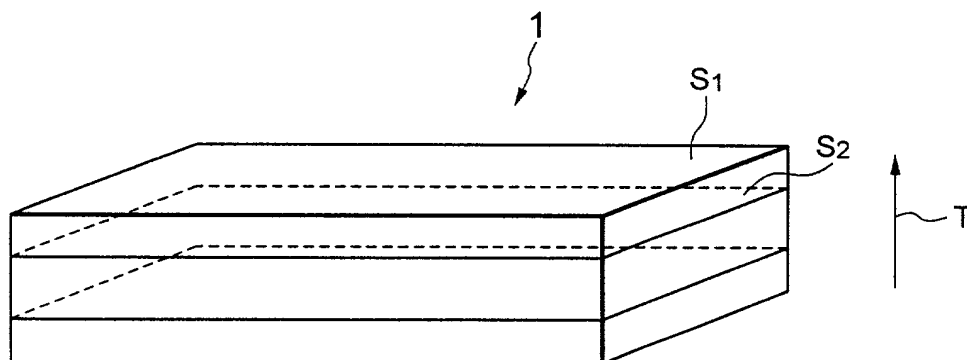

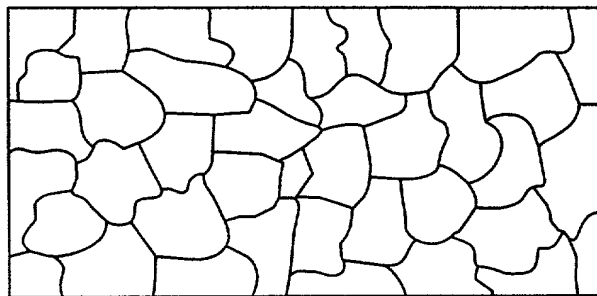

FIG. 2B

—

A 3D perspective diagram of a fiber cross-section. The fiber is elongated and has an irregular, wavy surface. A label '1' points to the top surface. A double-headed arrow labeled 'THICKNESS' indicates the width of the fiber. A double-headed arrow labeled 'MAJOR AXIS' indicates the length of the fiber. A double-headed arrow labeled 'MINOR AXIS' indicates the width of the fiber at the base.
